"It is with great pleasure that I recommend the Advanced Training Program. I have been in business now for two years and credit Marla and her skill as a mentor and teacher for helping me to develop a successful business.

Marla has been there with me, supporting me and encouraging me on every level of being a Professional Organizer. She has trained me well in the skills required to do the actual organizing, whether it be paper, space or time. She has also encouraged and inspired me as I grow my business, and has provided me with solid information on how to proceed. I have received incredible on a personal level about how to bring my whole being to this work. She has believed in my ability to be successful, even when I didn't.

In short, I would say that the Advanced Training has provided me with the tools, skills & systems that give me great confidence in my ability to be a highly successful Entrepreneur."
